Things to know when Recycling with

RUMPKE

Rumpke invited DRG3 into their Dayton area plant for a walk-through of their facility, and what an amazing facility it is! Rumpke, one of the nation's largest privately owned waste and recycling firms, has grown to be such with major investments such as their \$4 million dollar glass recycling plant which allows 40,000 ton of glass to be recycled each year. During our walk through we also learned about some common misconceptions about recycling. [Click here](#) to learn more.

September's Green Drinks

Photo from September 24 Green Drinks Dayton at Lily's Bistro in the Oregon District. Over 40 attendees enjoyed a great evening on the patio to hear about the Topic: "Ohio Green Legislation - What Are They Thinking?" Zach Roberts presented a history of what has happened regarding recent Ohio Legislation that has put on hold the statewide Energy Efficiency goals that were passed by a nearly unanimous vote in 2008. In addition, pending legislative action in Columbus being considered involving a ban on pursuing LEED certification for all State funded projects was discussed.

Quite an enjoyable and informative evening! [Click here](#) to RSVP for our October Green Drinks event at Toxic Brew.
